

METERING PUMPS

OBL_MDP&CE_EN_1015

Metering Dosing Pumps & Control Equipments

Metering Dosing Pumps

MS series

OBL MS series is manufactured to the highest quality standard to be used extensively in a wide range of demanding manufacturing, industrial and process applications where reliability, accuracy and long term performances are essential.

The product can be configured to meet a large variety of applications and needs: constant flow rate, proportional to an external pace/4-20 mA signals, built-in controllers for pH, conductivity, redox and chlorine.

MS.e

Metering dosing pumps

*Constant flow rate regulation.
PVDF pump head with FPM seals*

- LCD 2.1/2 digit display
- Flow rate digital adjustment 0-100% by keys
- PVDF pump head as standard
- Power on led
- Led Alarm
- Solenoid pulse Led
- Chemical dosing alarm level on demand
- ON/OFF switch
- Start/Stop key
- Polypropylene Plastic box with 30% fiber glass
- IP65 protection degree

MS.plus

Metering dosing pumps

Proportional dosing to an external facing pulses from a water meter or to an industry standard 4-20 mA control signal.

PVDF pump head with FPM seals

- Backlighted graphic display
- Proportional to an internal pacing pulses (water pulse sender): ppm mode and n:m mode
- Proportional to an external signal 4-20 or 20-4 mA, (both ranges selectable: mA and dosing frequency range)
- Constant flow rate mode
- Automatic regulation of frequency dosing (the pump automatically follows the flow variation)
- Automatic managing of excessive external pulses, self-regulation of dosing frequency
- Chemical dosing alarm levels as Standard
- IP65 protection degree
- PVDF pump head standard

Metering dosing pumps

Built-in instruments for pH, Redox, free chlorine and conductivity control and regulation.
PVDF pump head with FPM seals.

- Backlighted graphic display
- Very easy to use: programming way easily programmable thanks to user-friendly intuitive and softteam
- Proportional dosing to the set-point value or On/Off mode
- Constant flow rate mode
- Level probe input
- Plastic box IP65 protection degree
- PVDF pump head standard
- Chemical dosing alarm level as standard
- Version pH/Redox(mV) selectable from the user
- Start/Stop key
- Measure ranges:
 - pH: 0-14,00 pH; BNC input from pH probe
 - Redox(mV): 0-1999 mV; BNC input from Redox(mV) probe
 - Free Chlorine: 0-10,00 ppm; Input probe SCLO series
 - Conductivity: 0-10.00 mS with probe SCD K1; other ranges available 1000mS, 100 mS, 10 mS, with probe SCD K5

Control Equipment

OBL offers a wide selection of high performance controllers. microprocessor based, digital, single, double or multi-parameter controllers.

C series can work with input for pH/redox electrode, amperometric cell, potentiostatic cell, conductivity probe, dissolved oxygen cell, turbidity cell, standardized input (indicator).

Temperature input , for connecting a PT100 sensor.

Every controller is easily programmable thanks to the user-friendly intuitive menu and the front keypad.

C05.s

Controller

Single measure

The C05 controllers represent the excellence of OBL technology. The instruments of the C05 family allow easy settings with 4 frontal keypad and 2 more contextual menu keys. The wide display always shows the real time measurement.

The C05 controllers come in single and double measurement. The double measurement C05 are always provided with pH priority functionality. All C05 controllers can be remotely operated via PC or GSM modem, they can also accommodate an SD card for data storage and downloading.

C05.ct

Controller

Cooling tower

The C05 CT is specifically designed for Cooling Tower applications. The instrument controls the drain, the pump inhibitor and two pumps for Biocide. The controller integrates a clock-calendar which allows the Biocide dosing programming in daily, weekly or monthly way. Versions with conductivity measure or redox and conductivity measure are both available.

- "Abs" wall mounting box with IP65 Protection degree
- Dimensions: 202x184x106 mm

TECHNICAL CHARACTERISTICS

Measure Range	0...20.00 mS
Functions	Cooling Tower, control and regulation of conductivity
Resolution	0,01 mS
Display	Backlight graphic (128x64)
Controls	Keyboard (6 keys)
Temperature compensation	Manual or automatic temperature compensation (0-100 °C)
Relay output	5 free contact output relay 5 A max Out 1 Bleed control (bleed valve) Out 2 Feed control (inhibitor pump) Out 3 Biocide 1 relay (Biocide pump 1) Out 4* Biocide 2 relay (Biocide pump 2) Out 5 Alarm control
mA output	2 proportional 4-20mA (400 W max) Out 1 4-20mA Conductivity Out 2 4-20mA Temperature
Flow sensor	Indipendent control output relay via flow sensor switch
Bleed control	Conductivity, Timer, Manual
Feed control	Bleed Direct, % of Bleed, Timer, Water Meter, Manual
Biocide control	Indipendent (Biocide1 and Biocide2) 20 Line Programmer. Daily or 1-2-3-4 Weeks Timer-Clock system mode program.
Alarm control	Flow, Bleed and Feed Timeout
Datalogger	Optional SD memory card
Power supply	100-240 Vac
Box	In ABV V0 with IP65 protection degree
Dimensions	202 x 184 x 106 mm
Weight	1.150 gr l

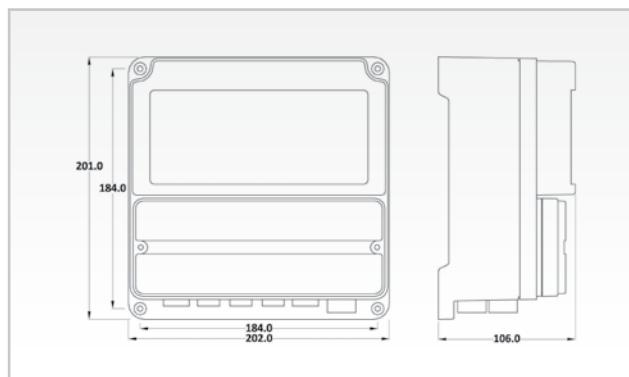

C05 CT CD (+ temperature)

- Nr. 5 free contact outputs for: Inhibitor, Biocide 1, Biocide 2, Bleed and Alarm
- Nr. two 4-20 mA proportional output signal one for the Conductivity and one for the temperature

C05 CT CD + RX (+ temperature)

- Nr. 5 free contacts outputs for: Inhibitor, Biocide 1, Biocide 2, Bleed and Alarm
- Nr. 1 free contact relay output for probe maintenance
- Nr. two 4-20 mA proportional output signal one for the Conductivity and one for Redox
- Flow sensor switch to open/close relays

MAX OVERALL DIMENSIONS

C10

Controller

C10 instruments series are high quality solution for applications that require simultaneous measurement of up to 4 parameters over the temperature. These controllers are designed for water treatment to meet technical requirements in accordance with local regulations. The C10 has inherited all the features of the C05 series, it can be controlled remotely via PC or GSM modem, it can store information on SD cards on request.

MODEL

- C10 PH-MV-CL
- C10 PH-MV-OXY

C10 (+ temperature)

- *Four set-points with free contact relays, selectable On-Off mode or proportional time/pause (PWM)*
- *Nr.1 free contact relay output for probe maintenance*
- *Maximum dosing time alarm*
- *Four 4-20 mA output signal with selectable range and galvanic separation.*
- *Two frequency signal output with selectable range and galvanic separation.*

MAX OVERALL DIMENSIONS

OBL Remote Communication

The C05 and C10 instruments can be remotely controlled via PC using any RS 232/485 connection or via GSM modem.

The software with graphic interface, allows the operator to set up the controller and regulate any settings as easily as being right in front of the instrument.

SD card data storage option is available for all controller ranges.

Probes & accessories

OBL offers a wide range of probes and accessories for dosing systems and instruments.

All the accessories you will find on our catalogue are designed to suit perfectly and maximize the performance of our products.

Tanks, mixers, lances are all available to be assembled ready to use mixing stations. Also filters, probe holders, valves and water meters are available.

BlackLine Series

Plunger Metering Pumps

RBA-RBB

MECHANISM : Spring Return

FLOW RATE

TYPE	RBA	RBB
L/h	300	300

- Black anodizing Aluminium casing;
- Simple and robust spring return plunger pump;
- Low cost, due to reduced number of components;
- Ideal for metering of mild or non-aggressive fluids.
- Single and multiple arrangement.

RCC

MECHANISM : Spring Return

FLOW RATE

TYPE	RCC
L/h	300

- Black anodizing Aluminium casing;
- Simple and robust spring return plunger pump;
- Low cost, due to reduced number of components;
- Ideal for metering of mild or non-aggressive fluids;
- ATEX STD compliance (94/9/CE), group II category 2 (zone 1/21) and group II category 3 (zone 2/22).
- Single and multiple arrangement.

HYDRAULIC DIAPHRAGM

XRN

MECHANISM : Spring Return

FLOW RATE

TYPE	XRN
L/h	105

- Black anodizing Aluminium casing;
- Technically advanced hydraulic diaphragm process pump;
- Combines the simplicity and economics of the mechanism with the advantages of the hydraulic diaphragm using an innovative mechanically actuated oil replenishing system;
- Built-in relief valve on the oil circuit to protect the pump against over pressure;
- API 675 - like performances with variable on site press. relief valve;
- Minimum maintenance required;
- ATEX STD compliance (94/9/CE), group II category 2 (zone 1/21) and group II category 3 (zone 2/22).

CHARACTERISTICS

RBA	L/h	7	15	20	38	55	90	150	200	300

Mechanical Diaphragm Metering Pumps

MB-MC

MECHANISM : Spring Return

FLOW RATE

TYPE	MB	MC
L/h	155	420

- Black anodizing Aluminium casing;
- Simple and robust spring return mechanical diaphragm pump;
- Low cost, due to reduced number of components;
- Uses mechanically actuated diaphragm to combine the characteristics of a plunger pump (linear flow rate) with the sealing advantages of a diaphragm pump;
- Minimum maintenance required.
- Single and multiple arrangement.

CHARACTERISTICS

MB	L/h	11	16	23	31	50	75	101	120	155
	bar max	12	12	12	10	10	8	8	7	7
MC	L/h	100	132	197	260	320	420	-	-	-
	bar max	7	7	7	7	5	5	-	-	-

MD

MECHANISM : Spring Return

FLOW RATE

TYPE	MD
L/h	520

- Black anodizing Aluminium casing;
- Simple and robust spring return mechanical diaphragm pump;
- Uses mechanically actuated diaphragm to combine the characteristics of a plunger pump (linear flow rate) with the sealing advantages of a diaphragm pump;
- Minimum maintenance required.
- ATEX STD compliance (94/9/CE), group II category 3 (zone 2/22).
- Single and multiple arrangement.

CHARACTERISTICS

MD	L/h	1,5	7	11	31	75	101	132	260	320	420	520
	bar max	12	12	12	10	10	10	8	7	6	6	5

ME

MECHANISM : Spring Return

FLOW RATE

TYPE	ME
L/h	1500

- Black anodizing Aluminium casing;
- Simple and robust spring return mechanical diaphragm pump;
- Uses mechanically actuated diaphragm to combine the characteristics of a plunger pump (linear flow rate) with the sealing advantages of a diaphragm pump;
- Minimum maintenance required.
- Single arrangement only.

CHARACTERISTICS

ME	L/h	750	1100	1250	1500
	bar max	7	7	6	5
